Brief profile of the Company: Accenture is a professional services company that helps leading global enterprises and public sector organizations achieve rapid value creation and continuous transformation by implementing digital technologies at the core of their businesses and maximizing the power of AI. We support our clients throughout every stage of their transformation journey, from strategy development and business transformation to technology implementation and operations. By working alongside our clients until transformation is successfully realized, we help turn vision into tangible outcomes. Accenture brings together the diverse capabilities required to drive all types of transformation. By combining the expertise of approximately 800,000 professionals worldwide, Accenture's proprietary assets, deep industry, business, and technology knowledge, and a strong ecosystem of partners, we deliver large-scale, high-impact solutions with measurable results.

Job Profile Details	
Job Designation/Position Offered	Digital Consultant
Job Description	Digital Consultants help clients solve business challenges through technology and enable large-scale digital transformation initiatives. Working with organizations across various industries, digital consultants design, architect, and deliver technology-driven solutions that create measurable business value. As a Digital Consultant, you will: - Diagnose client business challenges and design enterprise architecture and digital solutions that deliver measurable outcomes - Lead the selection and design of cutting-edge technology solutions — Cloud, AI/Data Analytics, Industry X (Manufacturing Digitalization), IoT, XR, Customer Experience, and more — tailored to each client's strategic priorities - Translate complex technology possibilities into actionable business strategies, guiding clients from vision through to execution - Define what should be built — not just how to build it — leveraging AI and automation to enhance quality and accelerate delivery - Drive the full consulting lifecycle: problem diagnosis, solution design, implementation oversight, and value realization What sets Accenture apart: We are technology-agnostic, enabling us to always recommend the best solution for our clients — unconstrained by proprietary products. Our goal is not to ""build for the sake of building,"" but to ""transform and deliver results." You will start your career as an Analyst, developing both technology and consulting skills through hands-on project experience. As you gain experience, you can progress to Consultant and Manager and pursue a variety of career paths based on your interests, strengths, experience, and skills, including: Business × Technology Path: Leverage your engineering experience to expand into upstream areas such as requirements definition, IT planning and strategy, and solution design and proposals. Project Management Path: Develop your project management expertise and grow into a role that leads teams, large-scale projects, and programs. Technology Specialist Path: Deepen your expertise in specific technology areas and grow into roles such as a technology specialist or architect, leading projects from a technical perspective. Your career is not limited to a single path. As business demands evolve, you will have the opportunity to develop new skills and expand your areas of expertise — building a career that grows with both your strengths and the needs of your clients.
No. of Vacancies (approximate)	30 (Across all IITs)
Place of Work	Tokyo Office affiliation: Nationwide centered on the Tokyo metropolitan area * There is a possibility of business trips in Japan and overseas and future changes in the office to which you belong.
Number of working weekdays	5 Days
Bond or Service Contract: (Yes/No) (If Yes, provide details)	No

Assignment	☐		Others						

Note:

- Recommended to keep students on the Waitlist in addition to your final selection, keeping in mind that some hires might opt for other offers or higher studies.
- The offer letter should be released within 60 days of result declaration. It must contain Date of Joining, Location, detailed breakup of salary structure based on the filled CTC in the JAF. Under any circumstances, the offer letter should not be delayed beyond March.
- If, even after selection, the student has to undergo any test/training to confirm his Offer/PPO, kindly inform prior at the time of selecting the candidate.

Kindly note that IIT Mandi has maintained a high rank in many surveys done by many organizations, wherein several departments have achieved the best positions nationally and internationally as well. The recognition could not have been possible without your support. We are once again striving to strengthen our position in Rankings wherein, a team of survey ranking committee may contact you to ask some queries along with others like:

- To nominate up to 10 institutions that they rate as being the best for producing graduates.
- To nominate up to 30 international institutions outside of their country/territory of knowledge that they rate as being the best for producing graduates.

We are sure your response will support us and request you to please respond as and when contacted.

Declaration

- We have gone through the AIPC guidelines thoroughly and agree to abide by the guidelines during the entire process of placement/internship activities. In case of violation of guidelines by us, we understand that an appropriate action may be taken on us as per AIPC guidelines (click here to know the guidelines of AIPC regarding action to be taken for different violations).
- We declare that we would be providing the shortlisting criteria along with the CV-shortlisted and/or Test-shortlisted candidates. We also assure that the details of final shortlisted candidates will be provided within the 24 to 48 hours after the written test.
- The information related to various job/intern profiles posted by us is verified and correct to the best of our knowledge, and the company will abide by the terms and conditions as outlined in these job/intern profiles posted while making the offers. No new clauses/ changes would be added/made in the final offer rolled out to the candidates selected on the profile(s). All details have already been outlined in the Job/ Internship Notification Forms. In the event of any discrepancy in the final offers, the company may be subject to appropriate actions in accordance with the placement/internship policy of the IIT Mandi and AIPC guidelines.
- We consent to sharing of company name, logo and email with national ranking agencies and government directives, and to listing company names in social media platforms and press/media.

Date:

Signature

(Please affix the Digital Signature)

- Note:**
- i) Please select eligible academic programmes as per your requirement.
 - ii) Please visit the website for AIPC (All IITs Placement Committee) guidelines.
 - ii) All mails and correspondence should be addressed to:
